SUMMARY

Front-End Engineering director specialized in the optimization of workflows throughout the business and into engineering to ensure workflow frameworks are in place and being utilized to full capacity.

EXPERIENCE

Freelancer

Fiverr.com

August 2019 - May 2023

• I have had the privilege of working with over 100 international clients, all of whom have provided exceptional 5-star ratings.

BDA

Byjus

January 2022 - May 2023, Bangalore

• Managed a team of team in creating more revenue and sales

SKILLS

Front End :Next.js, React,Tailwind, TypeScript Javascript Redux, HTML, CSS, GIT

Backend : Node.js Express.js Python Strapi ,SQL, Mongo DB

PROJECTS

H3lios.in

Fiverr • April 2023 -May 2023

• H3lios.in is my e-commerce website where you can purchase animation video products and custom websites. I created H3lios because as a level one freelancer on Fiverr.com, I am limited to publishing only 10 gigs. To offer a wider range of products to my clients, I decided to build my own e-commerce platform. The tech stack used to develop H3lios.in includes Next.js, Strapi CMS, Tailwind CSS, Redux, and Firebase.

• vist :<https://www.h3lios.in/>

Newsletter

Fiverr • May 2023 -May 2023

• Developed a fullstack newsletter waitlist and will send email to client that are subscribed to my newsletter

• vist : <https://h3lios-newsletter.vercel.app/>

Personal Website

April 2023 -May 2023

• vist <https://www.nikhilpn.com/>

• Nikhilpn.com is my personal website, built using Next.js and Tailwind CSS. The primary tech stack employed in nikhilpn.com includes Next.js and Tailwind CSS.
